despite or more likely due to being the culture which most affects and interacts with the masses the broad and definition evading category of popular culture remains a second class citizen in academia relegated to a position of low below a culture deemed high and worthy of scholarly inquiry this eclectic collection of essays aims to convince that this inequality must be addressed by exploring a variety of supposedly low cultural types and texts through an academic lens proving that so called low culture can be a valuable contribution to academic research that said raising the low does not mean making it high turning it into an elite category to be accessed only by experts rather the authors are unwavering in their approach that academic writing and fan writing are not mutually exclusive on the contrary it is their knowledge and passion as fans of their subject matter that has inspired their chapters all of which draw upon their considerable

experience of engaging as fans in what they discuss all the chapters have been written by postgraduate students seeking to inspire a new empiricism through which their interests might be fully pursued in their futures as scholars emma buchanan is a british postgraduate researcher and television fan who is currently writing up her phd thesis on the topic of gender and change in amc s the walking dead as understood from the point of view of jungian depth psychology

the popularity of such widely known works as the lottery and the haunting of hill house has tended to obscure the extent of shirley jackson s literary output which includes six novels a prodigious number of short stories and two volumes of domestic sketches organized around the themes of influence and intertextuality this collection places jackson firmly within the literary cohort of the 1950s the contributors investigate the work that informed her own fiction and discuss how jackson inspired writers of literature and film the collection begins with essays that tease out what jackson s writing owes to the weird tale detective fiction the supernatural tradition and folklore among other influences the focus then shifts to jackson s place in american literature and the impact of her work on women s writing campus literature and the graphic novelist alison bechdel the final two essays examine adaptations of the haunting of hill house and jackson s influence on contemporary american horror cinema taken together the essays offer convincing evidence that half a century following her death readers and writers alike are still finding value in jackson s words

dark night affects us all at some point in our lives the star of david comes in our help to illuminate and reveal through the works of st john of the cross the meaning and purpose of such darkness using simple geometry we will travel across different phases of the spiritual journey to realize that suffering and pain is part of a deeper natural purification process to strip the soul and transform the individual into his authentic self in this book we use very simple concepts and traces for those who want to revisit their faith through the works of the saint but also for anyone interested in his own personal development as a good individual if we learn to accept our suffering and darkness not only we move forward in our spiritual path but also will dare to suffer for others and transcend our spiritual comfort the script and the scene the spiritual path like any classical play has several parts with a beginning a development and the end after some introductory chapters on the work influences and historical context of the author chapters 1 to 3 we will raise the curtain in chapter 4 where the lower triangle our soul appears as the mount of the ascent in chapter 5 we raise the curtain a little more to introduce the new actor the upper trinitarian triangle the spirit vertex arrow directed towards the center of man s soul will be the protagonist in next stage chapter 6 when

the vertexes of both triangles divine and human realities contact the dark passive night of senses begins followed by the frightful passive night of spirit with the intersection and advance of the space invaded in a growing rhomboid area to better ground our model we contrast it with what fray john says about the soul as a vessel of infinite capacity chapter 7 the advance of the spirit in different facets dark light touch and breath widens the intersected area chapter 8 when the divinity completely permeates the soul appropriating its substance and transforming it into a fusion of wills both triangles form a star of david chapter 9 this sketch of love symbolizes the spiritual betrothal the geometry of intertwining realities becomes a hexagonal secret garden where the wine of the wedding and the honey of the marriage will be tasted it is the object of chapter 10 where we conclude our spiritual journey with john of the cross our model thus reproduces the saint s invitation to a theological life of growth of the virtues if man perseveres emptying himself he will gradually permeate his life and will end up illuminating what was night allowing him to discover a treasure in the depths of his soul
